GLOBE INN,

GETTYSBURG STREET,
LITTLESTOWN, ADAMS COUNTY, PA.

THE undersigned, having purchased the "Globe Inn" property, in Gettysburg street, Littlestown, would most respectfully invite a share of the public's patronage.
He promises the best the market can afford for his table, with the choicest liquors in his bar, and comfortable beds and chambers. With considerable experience, he thinks he can justly claim that he knows how to keep a hotel.
There is large stabling attached, as well as grass lots for grazing. An attentive ostler always on hand—none other than an accommodating one allowed on the premises.
He invites a large share of custom, and will spare no effort to deserve it.

GLOBE INN,

WORK STREET, NEAR THE DIAMOND,
GETTYSBURG, PENN'A.

THE undersigned would most respectfully inform his numerous friends and the public generally, that he has purchased that long established and well known Hotel, the "Globe Inn," in York street, Gettysburg, and will spare no effort to conduct it in a manner that will not detract from its former high reputation. His table will have the best the market can afford—his chambers are spacious and comfortable—and he has laid in for his bar a full stock of wines and liquors. There is large stabling attached to the Hotel, which will be attended by attentive ostlers. It will be his constant endeavor to render the fullest satisfaction to his guests, making his house as near a home to them as possible. He asks a share of the public's patronage, determined as he is to deserve a large part of it. Remember, the "Globe Inn" is in York street, but near the Diamond, or Public Square.

WANTED.

AGENTS WANTED FOR THE
OFFICIAL HISTORY OF THE WAR,
Its Causes, Character, Conduct and Results.
BY HON. ALEXANDER H. STEPHENS.
A Book for all Sections and all Parties.

THIS great work presents the only complete and impartial analysis of the Causes of the War yet published, and gives those interior lights and shadows of the great conflict only known to those high officers who watched the ebb and tide of revolution from its fountain springs, and which were so accessible to Mr. Stephens from his position as a second officer of the confederacy.
To a public that has been surfeited with APPARENTLY SIMILAR PRODUCTIONS, we promise a change of fare, both agreeable and salutary, and an intellectual treat of the highest order. The Great American War has AT LAST found a historian worthy of its importance, and at whose hands it will receive that moderate, candid and impartial treatment which truth and justice so urgently demand.
The intense desire everywhere manifested to obtain this work: its Official character and ready sale, combined with an increased commission, make it the best subscription book ever published.
One Agent in Easton, Pa., reports 72 subscribers in three days.
One in Boston, Mass., 103 subscribers in four days.
One in Memphis, Tenn., 106 subscribers in five days. Send for Circulars and see our terms, and a full description of the work, with Press notices of advance sheets, &c.

GETTYSBURG COMPILER.

BY H. J. STAHLE. GETTYSBURG, PA., FRIDAY, JUNE 26, 1868. 50TH YEAR.--NO. 38.

HOOFLAND'S GERMAN BITTERS,
AND
Hoofland's German Tonic.
THE GREAT REMEDIES
FOR ALL DISEASES OF
THE LIVER, STOMACH, OR DIGESTIVE ORGANS.

HOOFLAND'S GERMAN BITTERS

Is composed of the pure juices (or, as they are medically termed, *Extracts*) of Roots, Herbs, and Barks, making a preparation, highly concentrated, and entirely *free from alcoholic admixtures of any kind.*

HOOFLAND'S GERMAN TONIC

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.
Those preferring a Medicine free from Alcoholic admixture, will use

Hoofland's German Bitters.

Those who have no objection to the combination of the Bitters, as stated, will use

Hoofland's German Tonic.

They are both equally good, and contain the same medical virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.
The stomach, from a variety of causes, such as indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:
CONSTIPATION, FLATULENCE, INWARD PILES, FULLNESS OF BLOOD TO THE HEAD, ACIDITY OF THE STOMACH, NAUSEA, HEART-BURN, DISGUST FOR FOOD, FULLNESS OR WEIGHT IN THE STOMACH, SOUR ERUCTATIONS, SINKING OR FLUTTERING AT THE PIT OF THE STOMACH, SWIMMING OF THE HEAD, HURRIED OR DIFFICULT BREATHING, FLUTTERING AT THE HEART, CHOKING OR SUFFOCATING SENSATIONS WHEN IN A LYING POSTURE, DIMness OF VISION, DOTS OR WEBS BEFORE THE SIGHT, DULL PAIN IN THE HEAD, DEFICIENCY OF PERSPIRATION, YELLOWNESS OF THE SKIN AND EYES, PAIN IN THE SIDE, BACK, CHEST, LIMBS, ETC., SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH, CONSTANT IMAGINGS OF EVIL, AND GREAT DEPRESSION OF SPIRITS.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of the diseases in this country. For these we would submit those well-known remedies—

HOOFLAND'S GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC.

PREPARED BY *DR. C. M. JACKSON,*
PHILADELPHIA, PA.

Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.
These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Disease of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach, or Intestines.

DEBILITY,

Resulting from any Cause whatever; PROSTRATION OF THE SYSTEM, Induced by Severe *Labor*, Hardships, Exposures, Fevers, &c.

There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge in a small time leaves the eye, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC, an elixir that will instil new life into the veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE.

It is a well-established fact that fully one-half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression, "never feel well." They are languid, devoid of energy, extremely nervous, and have no appetite.
To this class of persons the BITTERS, or the TONIC, is especially recommended.

WEAK AND DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.
Thousands of certificates have accumulated in the hands of the proprietors, but space will allow of the publication of but few. These, it will be observed, are men of note and of such standing that they must be believed.

TESTIMONIALS.

Hon. Geo. W. Woodward,
Chief Justice of the Supreme Court of Pa., writes:
Philadelphia, March 16, 1867.
"I find 'Hoofland's German Bitters' is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system. Yours truly, GEO. W. WOODWARD."

Hon. James Thompson,
Judge of the Supreme Court of Pennsylvania.
Philadelphia, April 28, 1866.
"I consider 'Hoofland's German Bitters' a *valuable medicine* in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON."

From Rev. Joseph H. Kennard, D. D.,
Pastor of the Tenth Baptist Church, Philadelphia.
Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicine, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, *for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully, J. H. KENNARD,
Eighth, below Coates St.

From Rev. E. D. Fendall,
Assistant Editor Christian Chronicle, Philada.
I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver. Yours truly, E. D. FENDALL.

CAUTION.

Hoofland's German Remedies are counterfeited. See that the signature of C. M. JACKSON, is on the wrapper of each bottle. All others are counterfeits.

Extract from Report of Farmers' Club, N. York, 1867
"WASHING MACHINES.—Wm. D. Osborn, Port Byron, Cayuga county, N. Y., asks: 'Will the Club give us the opinion of Washing Machines? Is it economy to pay fourteen dollars for one of Doty's machines? Will it wash clothes clean, and not be too hard work for the women? Washing machines have so generally proved different that I am afraid of throwing away my money upon one?'
"SOLON ROBINSON—If you had to pay ten times the money you mention, it would be the best investment you ever made upon your farm. But you must not have that alone. Essayed to make a nest, and there did bring
Wet earth, and straw and leaves.

Day after day she toiled
With patient art; but ere her work was crowned,
Some sad mishap the tiny fabric spoiled,
And dashed it to the ground.

She found the ruin wrought;
But, not cast down, for th from the place she flew,
And with her mate fresh earth and grasses brought,
And built her nest anew.

But scarcely had she placed
The last soft feather on its ample floor,
When wicked hand or chance again laid waste,
And wrought the ruin o'er,

But still her heart she kept,
And toiled again, and last night hearing calls
I looked, and lo! three little swallows slept
Within the earth-made walls.

What truth is here, Oh, man!
Hath hope been smitten in its early dawn?
Hath cloud o'ercast thy purpose, trust or plan?
Have faith and struggle on!

THE KNOWING LANDLORD.

The proprietor of a hotel near Jackson is a square-built, sleepy-looking personage, with leathery flesh and an aspect of constitutional fatigue, but a more capable host than one would suspect. Under the mask of yawning slowness he is most alert, and has a perplexing way of popping in on his servants, when they think he is dozing before the fire, with his hands in his pockets, and his eyes glazed with an indolent film. His help are all colored. When they transgress they are dismissed summarily, and the proprietor, by going into the street, replaces them with slight trouble. The deceptive landlord received a letter from a young lady who had stopped at his house recently, in which letter she requested that her pocket-book, left behind under her pillow, should be forwarded by express.
The landlord had previously heard nothing of the pocket-book, but looking dreadfully sleepy he went to the colored chambermaid and said, "Pretty cold, Mandy." "Yes, sah." [A pause.] "Have to have a new broom soon, Mandy?" "Guess so—next week." [Pause again.] "Swept No. 5 yet, Mandy?" "Yes, sah." "That young lady's pocket-book, Mandy—fetch it to me"—this being drawled out in a tone of quiet indifference, but with an air of precisely knowing the history of the missing article, Mandy looked at him with a pale face and a frightened grin. He whistled, looked at the sky and yawned. "No hurry, Mandy, fetch it to me in ten minutes, that'll do—he-i-h-o-o." Mandy was routed. She was gone five minutes to a neighboring hut, and returned with the pocket-book as she had at first found it. The landlord took it with two yawns and never a word. But when Mandy disappeared he glanced at us with a shrewd twinkle in both eyes, and said, "I understand 'em." He does.

ALL OF 'EM.—A story is told by Mr. Alfred Taylor of a youth whose case is like that of many others lured to the church and Sunday schools by the vision of picnics and sweetmeats. In answer to the question, "Where do you go to Sunday school, Jimmy?" the little fellow replied—

"Why, marm, I go to Baptisses, and Methodisses, and the Presbyteriums, but I've been trying the Piscopals for two or three weeks."

"You don't seem to belong anywhere, then, Jimmy."

"Why, yes, marm, don't you see? I belongs to 'em all, exceptin' the 'Piscopals, but I'm going to jine them too now."

"Well, Jimmy, what's your idea in goin' to so many?"

"Why, you see, I gets a little of what's going on at 'em all, marm. I gets libraries, and hymn-books, and all that, and when they have picnics, I goes to every one of 'em."

A BOY was sent by his mother to saw some stove wood out of railroad ties. Going out doors shortly after, she found the youth sitting on the saw horse, with head down. The mother asked her hopeful son why he was cast down and why he didn't keep at his work.
The boy replied thus: "My dear mother, I find it hard, very hard, to sever old ties."

"DOCTOR," said a lady, "I want you to prescribe for me."
The doctor felt her pulse.
"There is nothing the matter, madam, you only need rest."
"Now, doctor, just look at my tongue, just look at it now. Say what does it mean?"
"I think," said the doctor, "that needs rest too."

A MAN who had purchased a new pair of shoes, finding the road to be a rather rough one, decided on putting his shoes under his arm and walking home barefoot. After awhile he stumped his big toe, taking the nail off as clear as a whistle.
"How lucky!" he exclaimed—"what a tremendous kick that would have been for the shoes."

A MAN lost his wife. His neighbors called upon him to offer consolation, and he came into the house all covered with dirt and water.
"Why, Mr. Brown, what have you been doing?"
"My wife dying so, made it a broken day, and I thought I would clean my well!"

A ROGUE asked charity on pretence of being dumb. A lady having asked him with equal simplicity and humanity, how long he had been dumb, he was thrown off his guard, and answered, "From birth, madam!" "Poor fellow!" said the lady, and gave him a dollar.

AN old man, when reading the lives of the ante-diluvian patriarchs, declared "he wouldn't have lived in those days for all the world, as a man stood the chance of having the toothache for more'n five hundred years."

"POMPEY, what makes you hab no wool on de top ob your head?"
"Wall, Julius, I was out West, 'bout two months ago, and de way I got bald was, de gals out dare used to pull me in dar windows."

AN unmarried lady on this side of fifty, hearing of the marriage of a young friend, observed with a deep sigh—
"Well, as soon as all the infants are disposed of, I suppose the women will have a chance."

A WONDERFUL DOME.

The dome of the capitol at Washington is the most ambitious structure in America. It is a hundred and eight feet higher than the Washington Monument at Baltimore, sixty-eight feet higher than that of Bunker Hill and twenty-three feet higher than the Trinity Church spire of New York. It is the only considerable dome of iron in the world. It is a vast hollow sphere of iron weighing 8,200,000 pounds. How much is that? More than four thousand tons, or about the weight of seventy thousand full grown people; or about equal to a thousand laden coal cars, which, holding four tons apiece, would reach two miles and a half. Directly over your head is a figure in bronze, "America," weighing 14,985 pounds. The pressure of the iron dome upon its piers and pillars is 13,477 pounds to the square foot. St. Peter's presses nearly 20,000 pounds more to the square foot, and St. Genevieve, at Paris, 66,000 pounds more. It would require to crush the supports of our dome a pressure of 775,280 pounds to the square foot. The cost was about $1,100,000. The new wings cost about $6,100,000. The architect has a plan for rebuilding the old central part of the capitol and enlarging the park, which will cost about $3,200,000.

NEAR San Francisco is a restaurant where the proprietors are compelled a exact pre-payment for meals. Recently a stranger called in, and ordered soup. The waiter brought it up, set it down, then held out his palm. "What for?" inquired the stranger, "Pay, sir." "What! before I eat it? Wait till I get through." "No, sir; we want pay before you eat." "Well, that I never do; when I get through with the soup I will talk about pay." "That won't answer; I want pay now?" exclaims the waiter. "Well, if you can get it before I ace it to pay, let's see you," he replied, holding on to the plate, and commencing to eat. At this the waiter whisps out of his pocket a large syringe, inserts the point into the soup, and empties the dish before the astonished man can fully recover from his amazement at the strange proceeding. Exit waiter in triumph.

MULTITUDE.—There was a great wedding in a family which was exceedingly numerous. The bridal party, with the clergyman, were gathered in a small boudoir that opened into the main parlor by folding doors. In this main parlor were gathered a great crowd of the relatives, all belonging to this proverbially numerous family. The sliding of the doors was a signal for the beginning of the service. Immediately upon their unfolding and revealing to the bridal party the numerous company gathered to witness the ceremony, the minister began his prayer thus; "Lord, what a multitude"—before he could add "of mercies," the invited guests had caught an idea very different from that intended, and were so amused as to lose half the solemnity of the occasion.

DEMOCRATIC STATE TICKET.

FOR GOVERNOR,
Hon. CHARLES R. BUTLER, of Fayette county.

FOR SURVEYOR GENERAL,
Gen. WILLIAM H. LAM, of Columbia co.

THE COMPILER FOR THE CAMPAIGN.

A Glorious Triumph Awaits Us!—Democrats, to Work Now!

The Radical nominations create no enthusiasm. The names of Grant and Colfax fall flat upon the public ear. We predict that the Democratic candidates chosen at New York on the 4th of July will electrify the white masses, and that Victory will perch upon our banners in November. But the campaign will be an active, a *working* one. No effort will be spared, as none should be, to rid the country of corrupt, tyrannical and destructive Radicalism. In this glorious work the COMPILER will take a full hand. In nothing that the editor can do, or his means afford, will it be behind its cotemporaries. In order, therefore, to enable us to do the more good, we have reduced our rates for the campaign (until after the Presidential election) to the following low figures:

Single copy, 75 cents; Five copies, $3; Ten copies, $5.

☞ As heretofore, any one of our present subscribers sending us the name of a new one, with $2 in cash, will receive a credit of fifty cents on his own subscription.

Democrats—Conservatives—all in favor of White Men ruling America—come up to this work at once. Spread the truth everywhere! Spread it *now!*

BATTLE "NEWS!"

The preparation of a *true* history of the battle of Gettysburg promises to become a more difficult task as day succeeds day. The errors that have already crept into the public prints in regard to its various details would fill volumes—and notwithstanding the time that has elapsed, additions to this extensive stock of falsehood are still frequent. Our citizens are often amused, and sometimes amazed, at the enormous distance which not a few writers manage to place between their statements and the truth on this subject.

The latest, but one of the *heaviest* draws of the "long-draw," we have seen, comes to us in a paper published "away out West" in Omaha. The editor takes for his subject D. McConaughy, "Senator from the historic Gettysburg district," (a Senator, by the way, who was fairly defeated in a contest before the people, and ran the lowest on his ticket in his own county,) and proceeds to inform his western readers that "during the ever memorable battle (at Gettysburg) *he (McConaughy) command d a company of independent scouts*, and did very essential and effective service to the Union army *in that capacity* during the day!"

Think of our "Miss Nancy" doing "essential and effective service" in the capacity of commander of a "company of independent scouts"—*in a neighbor's garret or cellar!*—a place of security which he managed not to get out of until the battle was entirely over and the rebels were in full retreat!

Distance is said to have a good deal to do with making some views enchanting. In this case it requires the immense space intervening between Gettysburg and Omaha *to see* McConaughy in command of a company of "independent scouts" during the great battle fought at the former place! Is such ridiculous *bosh* to go into history.

It may be said, however, in excuse for the Omaha editor, that McConaughy was himself in that city about the time the article appeared.

THE New York *Sun* thinks the chances now are that Hon. Thomas A. Hendricks, of Indiana, will be the Democratic nominee for President. A decision will be reached in the next ten days, as the Convention to nominate will meet to-morrow week, (July 4th,) in the city of New York. Let us exercise patience until then, and, with undoubting confidence in the good sense and patriotism of the delegates, prepare for a vigorous contest from the moment the nomination is announced. A glorious victory is within our grasp. While men, strike your best blows for it!

ARKANSAS.—The President, having sound, constitutional reasons for so doing, vetoed the Arkansas admission bill, but the Radicals in both Houses have passed it over his head. So infamous an act could only be attempted by a party driven to desperation. But it will not help them. Let them make as many negro States as they may, Radicalism will receive its death blow in November next. Forty Grants couldn't save the corrupt and odious thing.

GEN. GEORGE H. GIBSON, of Ohio, said in the Chicago African palaver—"Ohio stands ready with 200,000 votes to write approved on the back of Colfax." Well, that will give the State to the Democrats by nearly fifty thousand majority. Judge Thurman, the Democratic nominee for Governor, had 240,000 votes in that State last fall, and all the town elections since have shown large Democratic gains. So 200,000 on the back of Colfax will kick him so far up Salt River that he will never be heard of in fresh water regions again.

THE Democracy of Washington county have made splendid nominations. The ticket is headed with Col. William Hopkins for Congress, one of the best and purest men within the limits of our grand old Commonwealth; a man who would dignify and adorn any position conferred upon him; a brave, fearless defender of the right. We should be extremely gratified to see him elected.

HON. HENRY D. FOSTER has received the unanimous nomination for Congress by the Democracy of Armstrong, Indiana and Westmoreland. If the people of that district prefer honesty and brains to empty brass and filthiness—assuming that Covode is to be the Radical candidate—there will not be much of a contest.

THE Philadelphia *Age* office has just been removed to a very commodious building, embracing Nos. 14 and 16 South Seventh street. The entire structure has been fitted up with all the modern improvements of a first-class newspaper establishment. We rejoice at this evidence of the flourishing condition of the *Age*, and hope it may continue to prosper *immensely*.

GEN. WM. B. FRANKLIN will preside at the National Convention of Conservative Soldiers, at New York, on the 4th proximo.

LOOK ON THIS PICTURE.

Wilmington is the chief city of North Carolina, and Charleston is the chief city of South Carolina. In the Legislatures of those States, recently elected under the Radical reconstruction policy, these two cities are thus represented:

WILMINGTON, N. C.
SENATE.
A. H. Galloway, negro;
Jos. C. Abbott, New Hampshire;
L. G. Estes, U. S. A.;
G. W. Price, negro.

CHARLESTON, S. C.
SENATE.
D. T. Corbin, unknown;
R. H. Cabin, negro.
HOUSE.
R. C. De Large, negro;
A. J. Ransier, negro;
R. Tomlinson, unknown;
W. H. H. Gray, negro;
B. A. Boseman, negro;
George Lee, negro;
B. F. Jackson, negro;
Jos S. Jenks, Freedmen's Bureau;
Wm. McKinlay, negro;
F. J. Moses, Jun., S. C.;
W. J. Brodie, negro;
J. B. Dennis, negro;
John B. Wright, negro;
Wm. Jervey, negro;
Abraham Smith, negro;
Samuel Johnson, negro;
Stephen Brown, negro;
Edward Mickery, negro.

Here is a picture for all to look upon; one which all should see and reflect upon. As the Cincinnati *Enquirer* well says, it is a mirror in which "Radicalism" can see its practical development! It is the great fruit of Radical speeches! It is the sweet particular blossom of its policy! It is a fragrant exhibition of its statesmanship! It is what we have gained by the war, about all we have gained, except the gigantic debt, and a loss of a million of lives! How do the people of the North like such rulers and co-partners, for it must be remembered that they select United States Senators to vote on and rule not only the South, but the North also. What a progress we shall make in the South with "Cuffee" and "Sambo" thus leading the van in its principal cities—dishonored and degraded vagrants, who have crawled into the places that were once filled by genius, worth and talent? Who will not vote at the North to brush away, as we would the web of the spider, this shameful and infamous burlesque upon government in the South?

MASSACHUSETTS BARBARISM.—Another horrible case of the flogging of a pupil in the public schools has been brought to light in Massachusetts. It is supposed that the child will be crippled for life, even if his life can be saved. This and other cases of the same kind induced a benevolent member of the Legislature to introduce a bill for the abolition of corporeal punishment in the public schools. It was, however, defeated by a large majority, and so the brutal flogging of pupils is to be continued unrestrained. The lashing of the tough hide of a plantation negro used to be enough to set all Massachusetts to weeping, but delicate white children, girls and boys, may be flogged with leather thongs, tied up by the thumbs, placed under the shower bath, or subjected to any other barbarous and inhuman punishment, and it fails to produce the least sensation except among a few philosophers and humanitarians like Professor Agassiz. Every attempt to suppress these horrible practices by legislative enactments is successfully resisted, and we presume there is no present remedy for the dreadful evil.

GRANT MEDALS.—An exchange says: A gentleman from Illinois informed us the other day that after the Chicago Convention he inquired of one of the principal dealers in Grant medals in Chicago how those tokens were selling. "Well, sir," replied the dealer, himself a Radical, "either General Grant has no friends or they are the —— coldest set of friends I ever saw. These medals don't sell at all. Nobody wants them. You can't give them away. I thought I should be unable to supply the demand, but, as you see, I have nearly the whole of my stock on hand, and the probabilities are that I shall continue to have them." Such is Grant's popularity. Has anybody seen a Grant medal, or heard a spontaneous cheer given for him? We pause for a reply.

ALARMING INCREASE OF THE NATIONAL DEBT.—We learn from the published statement of the Secretary of the Treasury that during the month of May the national debt was increased NINE MILLIONS, SEVEN HUNDRED AND SEVENTEEN THOUSAND, AND NINE HUNDRED DOLLARS! Is not this alarming? Just think of it! In time of peace the debt to increase at the rate of nearly ten millions of dollars per month. This is Radical rule, mismanagement and stealing. Why, if these cormorants are kept in power much longer they will steal the Capitol, Goddess of Liberty and all. Are not the people convinced that it is high time to hurl these scoundrels from power?—*Reading Gazette.*

GEN. GRANT has already kicked the economy plank of the Chicago platform overboard, by writing a letter to the House Committee on Military affairs recommending a renewal of the increase of thirty-three and one third per cent. in the pay of army officers. The law allowing this increase expires June 30th. A one-third increase of expenses is a pretty good commencement in the way of "retrenchment" and "economy"—as understood and practiced by the Radicals.

AN ARKANSAS U. S. SENATOR.—A. McDonald, one of the newly elected U. S. Senators from Arkansas, is said to have first rate qualifications for the post, as viewed from a Radical stand point. He is of the firm of McDonald, Fuller & Sells, Indian traders, and is represented as having through an official in his interests, bought corn from the government at 18 cts. per bushel and flour at $4.50 per barrel, and then sold both articles back, the corn at $8 and the flour at $34! Of such are impeachers made.

ANOTHER SPECIMEN OF THE "GOD AND MORALITY PARTY."—We see by the Lebanon *Advertiser* that Daniel Gerberich, Radical Treasurer of Lebanon county, Pa., has absquatulated, pending an indictment against him for using $17,000 of the county funds for his own business. The prominent Radicals of Lebanon endeavored to cover up his crime by keeping back legal proceedings for nearly two years, in order that he might wind up his affairs and escape punishment. Perhaps other Radicals shared with him in the stealing. This is another Radical triumph. It is a wonder the Radicals do not howl Ku Klux to cover it up.

THADDEUS STEVENS has prepared four articles for another impeachment of the President. The more moderate Republicans are alarmed at this third attempt, and may be strong enough to nip it in the bud.

CLERICAL CHARITY.—The Maine *Democrat* says that one of the clergymen of Saco, in that State, speaking of Senator Fessenden's vote on the impeachment, said, "*there's one man more gone to h—ll!*"

Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

Job Printing—Another New Press.—We have just added to our machinery, a new FRANKLIN JOB AND CARD PRESS, built by Mr. George P. Gordon, New York. It is designed for the printing of Cards, Bill and Letter Heads, Circulars, Blanks, Handbills of small size, and much other work in our line. We secured the Press through Col. Frank. Vallee, agent, at Philadelphia, who arrived here on Saturday at noon, immediately went to work to put the machine in place, and before supper had it running. On Monday morning he took his departure, with nearly four hundred and fifty dollars more in his pocket than he had when he arrived.

We have now three Presses in excellent running order—a Potter Drum Cylinder Power Press, a Gordon Jobber, and a Foster Hand Press—not to mention our somewhat antiquated Smith Press, which would be brought into requisition were it needed.

With such extensive facilities for printing, and an immense assortment of the latest metal and wood types, rules, borders, &c., (and more coming,) we can safely promise to do all kinds of work as perfectly, as expeditiously, and as cheaply, as any other office in the State. It has long been our ambition to have a First class Printing Office, and we now feel that the aim has been accomplished.

The continued patronage of our friends and the public generally is solicited—confident as we are that no one will have occasion to go away dissatisfied.

Patronage.—We have long had, and still have, a hand-ome run of patronage—for which earnest, heart-felt thanks are again expressed. But we have no more money for all that, because every dollar obtained above a simple living is devoted to the improvement of the COMPILER office.

When entering upon its responsibilities, twenty-three years ago, we resolved that if industry and faithfulness could earn us a livelihood among this people, it should be done; and now, when the old organ has nearly reached its FIFTIETH YEAR, we have the proud satisfaction of announcing to its many friends that at no previous period in its history was it in as flourishing a condition—never with as many subscribers and as much general patronage.

Agricultural Fair.—As announced in our last, the next Adams County Agricultural Fair will be held on the 22d, 23d and 24th days of September, with the 21st for entrance day. It is to be hoped that farmers, mechanics, and the public generally—not forgetting the ladies, who are all-important in such matters—will at once give the subject attention, and begin their preparations for a mammoth exhibition. The Fair last year was good, but from the shortness of the time had to prepare, it was nothing like what Adams county can produce. This year let us show to visitors from other parts of the country, and thousands will no doubt come, that our county peoples a front rank in agriculture, as in some other respects, and due credit will for once be accorded it. County pride, if nothing else, should stimulate all, from the centre to its remotest boundaries, to make a vigorous effort for a Fair that will properly represent the producing interests of large-hearted and go-ahead "Little Adams."

The programme and premium list will soon be printed. Capt. John Burkholder, chosen Chief Marshal at the last meeting of the Board, has accepted.

The Gettysburg Spring.—Dr. Smith is pushing operations at the Gettysburg Katalysine Spring with all possible vigor, to meet the rapidly increasing demand for this valuable water—and he appears to be just the man to do it. With his large force of hands and improved machinery, he is having bottled, packed and shipped about two hundred and fifty dozen quart bottles every day, besides meeting the many calls for the water at the spring. He is making arrangements to have the cases necessary in the shipping of the water manufactured on the ground, and will thus considerably facilitate his operations.

He had an excellent road graded from the turnpike to the spring, and the grounds handsomely laid off and set with shade trees, some months ago; and is now engaged in enclosing about ten acres more, to be improved likewise. With Dr. Smith's energy and taste, the Gettysburg Katalysine Spring will soon become famed for the beauty of its surroundings, as it has already become for the virtues of its water.

The Spring Company have purchased the McPherson, Ireland and Herbst farms, and therefore own nearly all the land between the Chambersburg turnpike and the Hagerstown road, from the Seminary lands to Herr's ridge—a beautiful tract, with fair proportions cleared and timbered, and well watered, Willoughby's run passing through the centre of it.

Wheat Weevil.—We hear complaints, from many quarters, of the re-appearance of the weevil in the wheat. They are said to be very numerous, and must be correspondingly destructive. This is really to be deplored. Never before in its history had Adams county so encouraging a prospect for a large yield. Look where one would, a poor field of wheat was not to be seen. But all that may be seriously changed. Where twenty bushels to the acre were expected, five may not be made. We earnestly hope that these gloomy fears may not be realized, but from what we have heard and seen cannot escape the conviction that considerable damage must result, at the best.

Matrimonial.—To our young friends contemplating matrimony we would *whisper*, (of course they don't want the world to know anything about their intentions,) that their Wedding Cards can now be had at the COMPILER office, as neatly and as handsomely done as in the cities, and for less money. Our new Gordon Jobber is just the thing for that and all other kinds of fine work.

A Good Idea.—Our young friend, J. A. Danner, has made arrangements to keep a constant supply of Katalysine Water, fresh from the spring, for the accommodation of his friends. Persons desiring to test it will find it, cool and fresh, at the store of Danner & Ziegler.

Elected.—Lieut. J. F. McCreary having resigned his membership in the Gettysburg Zouaves, Wm. B. Eyster has been promoted to 2d Lieutenant, Wm. D. Holtzworth to Orderly Sergeant, and the other Sergeants and Corporals respectively advanced.

Good Memories.—We understand that two scholars in the Bendersville Union Sunday School recently memorized and recited 5,030 verses in one week—one, (Charles Longadorff,) aged about 16 years, memorizing 3,000; and the other, (Kate Troxell,) aged about 11 years, memorizing 2,030.

Commencement.—The Annual Commencement at Mt. St. Mary's College, near Emmittsburg, took place on Wednesday last. The attendance was unusually large, and the occasion graced with the presence of three of the seven Archbishops in the United States—Most Reverends Spalding, of Baltimore, McCloskey, of New York, and Purcell, of Cincinnati. The literary exercises were of a high order. The music, furnished by the St. Cecelia Society of the College, under the leadership of that prince of musicians, Prof. Dielman, gave great satisfaction. Speeches were delivered by James C. Fenlon, Latrobe, Pa., "Superstition"—Reginald W. Jenkins, Baltimore, "Papacy and Civilization"—George B. McCloskey, New York, "Old Sayings and Doings"—Henry C. Semple, Montgomery, Ala., "Modern Education"—William E. Mountain, Windsor, N. C., "Puns and Punning"—James C. Fenlon, Valedictory; followed by remarks by President McCaffrey, and the Archbishops. The exercises closed with the conferring of degrees and distribution of premiums.

The annual College dinner, under the management of the active and energetic Procurator, Vice President McCloskey, was a capital affair, and highly relished by a large company.

The Commencement at St. Joseph's occurred yesterday. We understand that the attendance was very full, and that the exercises were unsurpassed in interest.

Festival.—The Ice Cream and Strawberry Festival, in Agricultural Hall, for the benefit of the Memorial Church, was a perfect success in every respect. Two evenings were announced, (Thursday and Friday,) but the Festival proved to be so pleasant, both to the numerous visitors and those holding it, as to cause its extension to Saturday afternoon and evening. Hundreds were present all the time, but on account of the large size of the Hall, there was no jam and no confusion. There was plenty of delicious ice cream, furnished by Mr. John Gruel, with strawberries, cakes, and lemonade. The entire proceeds, we are told, amounted to about $420, from which something for expenses is to be deducted, though many articles were contributed in advance.

The Gettysburg String Band was present on Thursday evening and contributed greatly to the pleasure of the occasion. On the same evening, the children at the Orphans' Homestead, accompanied by their officers, visited the Festival, at the special invitation of the students at Pennsylvania College. The little folks remained about an hour, and were delighted with their visit. They sang whilst there, "Shall we gather at the River?" very sweetly.

Strawberries.—Mr. Robert Sheads, the other day, presented us with a lot of strawberries, the "Russell," very large and delicious—for which he has our thanks. Mr. Sheads is growing strawberries on an extensive scale, on Seminary ridge, and, judging from those presented, is meeting with great success. He is also largely engaged in the culture of grapes.

The several fruit and vegetable gardens growing up around Gettysburg, (for which the soil and climate are admirably adapted,) must add much to the comfort of our citizens, and at the same time pay well for the proprietors. People here will eat, let it cost what it may.

Accident.—On Tuesday last, Samuel Crist, son of Mr. John Crist, of Cumberland township, fell on a grass scythe, severely cutting his right arm over the wrist joint, severing the ulna artery. Dr. O'Neal gave the case prompt attention. The bleeding was checked by securing the artery, and the patient is doing well.

Emmittsburg Railroad.—It is officially announced that books will be opened on the 19th and 20th instant, in Emmittsburg, for subscriptions to the stock of this road. The charter authorizes the building of a railroad from Emmittsburg to the Western Maryland Railroad, immediately west of Monocacy river. The length of the road will be about seven miles, passing through a fine section of country, and bringing those ancient and celebrated institutions of learning, Mount St. Mary's and St. Joseph's, located near Emmittsburg, in close proximity to Baltimore.—*Westminster Democrat.*

Cards.—Do you want a lot of nice Visiting or Business Cards, Wedding or Funeral Cards, Lecture, Ball or Concert Tickets? Then call at the COMPILER office, in the second square from the Diamond, and nearly opposite the Court-house, and you will be accommodated to your satisfaction in every respect.

Death from Locust Stings.—A few days ago, in York county, on the road leading from York to Gettysburg, seven boys, members of one family, named Schueller, while out in a cornfield, were stung by locusts, and all seven died. They were buried the same day.

—The above we clip from a Harrisburg paper of Tuesday, and have only to say that we don't believe a word of it.

Bridge Contract.—The contract for the building of a covered Wooden Bridge across the Big Conowago, on the road leading from Hunterstown to York Springs, was recently awarded, by the County Commissioners, to Pittenturf & Co., at $2,797.

Normal School Examination.—An examination of the students in the Gettysburg Normal School will take place to-day—commencing at 8 A. M. and continuing until evening. The public are cordially invited.

Soldiers' Orphans.—Agricultural Hall will be open on Friday evening, July 3d, for anniversary exercises, prepared expressly for these children. Strangers, citizens—all interested in the Orphans' Homestead—are desired to be present.

New Post-Office.—A new Post-office has been established at New Salem, on the Chambersburg road, to be called "McKnightstown"—Jacob F. Lower, P. M.

From the Hanover Citizen.

New Church.—We learn that a new Catholic church will be erected during the present summer where the old one now stands, in Baltimore street, this place. The work will be commenced next week.

Bridge Burned.—A bridge across a stream of water about a mile this side of the Hanover Junction, on the Hanover Branch railroad, was destroyed by fire on Saturday evening last. It is not known how the fire originated.

Destructive Storm.—The storm which passed over this section last Friday afternoon, has done considerable damage to the grain in some parts of Adams county. The storm between this place and Oxford was very severe, lodging the wheat and rye flat to the ground.

The Turf Again.—Last Monday evening two races came off near our borough; one of them between horses belong to Mr. W. Kuhn and Mr. H. Trone, the latter winning the race. The other race was between Mr. C. Krantz, of this place, and Mr. W. Upbold, of Conowago township, Adams county—Mr. Krantz's horse beating by considerable odds.

Campaign Subscribers.—A Democratic friend at East Berlin sent us, last week, a list of sixteen campaign subscribers, with the cash in advance. Whatever of labor was connected with securing the subscribers, he performed cheerfully, conscious that in doing so the "good old cause" was benefited. Lists equally large, if not larger, can be gotten up in twenty other localities in the county, if some one will only make the proper effort in each.

Into the struggle, Democrats, FOR SUCCESS, NOW! The work cannot be commenced too soon—and in no way can it be more effectively performed than by spreading *the truth* among the people. If sixteen subscribers cannot be secured in a neighborhood, get ten, or five, or one, and so much will be accomplished, at any rate. Our terms are low—so low as not to leave us one cent of profit—but all must contribute something toward the end in view, and none can be more willing to do a full share than the writer.

Machinery.—Such of our friends as are fond of inspecting perfect machinery, should call in to see our Potter Power Press and Gordon Jobber. They are the most effective and desirable printing machines built, and we feel proud in the possesion of them. Both are just what the good practical printer wants—easily operated and regulated, perfect in impression, and almost noiseless.

It may be stated in addition, that our office room has been greatly increased, adding to the comfort of the workmen, as well as their facilities for doing work, and giving us ample space for the transaction of business with our numerous customers. Call in, then, friends—don't hesitate. "No trouble to show goods."

No Delay.—With our now ample Press power, no annoyance in the shape of delays need be experienced. After less than an hour's notice, five hundred cards or bill-heads, or other job requiring little type-setting, may be called for. The two new Presses have completely up-set all the old fogy ways of doing things in our line

Cash.—We had to pay *the cash* for our new Press, (with nearly all borrowed money,) and equal promptness is required in the purchase of everything else entering into our business. Will our patrons please bear this in mind, and do unto us as we are compelled to do unto others? Our margin of profit is too small to allow delays in payment. Besides, to ninety-nine out of a hundred it is just as convenient to pay when the work is done as three or six months after. Think of this, friends.

Revenue Frauds.—The U. S. Internal Revenue officers of this District, last week, seized and closed the distilleries of George W. Ruby, Adam K. Bortner, and William Fouse, all of Shrewsbury township, for alleged frauds in distilling and removing Whiskey without paying the tax. A few weeks since, the distillery of F. Bartholmal and G. W. Noedel, in North Codorus township, was also seized and closed for frauds on the revenue. All these cases will be adjudged by the U. S District Court in Philadelphia.—*York Gazette.*

Died from a Locust Sting.—On last Wednesday, Miss Elizabeth Gambler, residing near the Temple Station, on the East Penn'a Railroad, caught a locust—the first she had seen—and was exhibiting it to her mother, when it stung her on the hand. The sting caused her much pain, and its poisonous effects ran through her whole system, from the effects of which she died on Saturday evening. Miss Gambler was a very amiable young lady, eighteen years of age, and her untimely death spreads the pall of mourning over the hearts of a large circle of acquaintances. We warn our friends, everywhere, to beware of handling these apparently harmless insects, as there can be no longer a doubt that they will sting, and we have in the foregoing an instance of the fatal effect of such a sting.—*Reading Dispatch.*

Failure of the Peach Crop.—The Elkton (Md.) *Whig* says: "There appears no longer to be a doubt of the total destruction of the peach crop in this county. A gentleman who owns 4,000 trees, and resides in the heart of the peach-growing region in Sassafras Neck, informed us this week that his orchard wouldn't average one peach to the tree, and that he believed this was the case throughout the peach section of this county. The peach is a valuable crop in the first district, and in a good season is estimated to be worth about $200,000."

Are Secure Beyond any Contingency.—The Union Pacific Bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July, at the Company's office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is 102, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these Bonds, at the present rate, are the cheapest security in the market, and reserve the right to advance the price at any time. Subscriptions will be received in New York.

Entertainment.—A Literary Entertainment will be given at Boyd's Schoolhouse, Newville road, two miles from town, on Saturday evening, June 27, for the benefit of the Sunday School.

Hay-Making.—Our farmers are busy at their hay-making, and a heavier or better crop they never before housed.—The grass has hardly ever been so generally good throughout the county.

Housekeepers who want the worth of their money should buy Tin-ware, &c., at S. G. Cook's, (formerly A. Polley's) York street, as it is well known his ware is made of the very best material. He also has a full assortment of the best Cooking Stoves to be had, warranted to give satisfaction in every respect. Also, Enamelled Preserve Kettles, Metal Boilers, Brass Kettles, and, in fact, a hundred others articles, at prices certain to please. He is also prepared to put up House and Barn Spouting, at short notice. Cook is agent for Munson's Pittsburg Copper Lightning Rod and Fisher's Self-sealing Fruit Can. 3t

It is conceded by all who have tested them, that Dodge's Patent Ohio and Buckeye, and E. Ball & Co's World Reaper and Mower, are beyond all question the best in the market, combining in greater perfection the great essentials of simplicity, durability, compactness, and lightness of draft. Wm. Wible, Straban township, is the Agent for these admirable Reapers and Mowers, and Farmers would do well to examine them. See advertisement. 2t

"Tone tries all Things" and has proved that Dr. *Wistar's Balsam of Wild Cherry* is the remedy *par excellence* for the cure of coughs, colds, croup, whooping cough, bronchitis, asthma, phthisic, sore throat and influenza. It cures coughs and colds *instanter!* It soothes the irritated parts; it heals the inflammation; and even consumption itself yields to its magic influence.

Ever-Green Cemetery.—The annual election for officers of this association was held on the evening of the 22d inst., resulting in the unanimous election of the following gentlemen:

President—J. L. Schick.

Managers—George Little, George Spangler, Alexander Cobean, Wm. B. Meals, John Rupp, Josiah Benner, and John L. Hill.

The new Board has organized by electing Wm. B. Meals Secretary and Alex. Cobean Treasurer.

As the Cemetery has become a matter of general interest we give the report of the Board of Managers in full, showing the financial condition of the association and its operations during the year:

GETTYSBURG, June 2, 1868

The Board of Managers of Ever-Green Cemetery feel called on to render to the association an account of their doings, and would submit the following:

During the year we have endeavored to obtain additional subscriptions towards the liquidation of the debt remaining against the Cemetery, but are sorry to say that we did not meet with very good success. Consequently the amount of debt is not much less than reported a year ago. Having, by a thorough canvass of the town, obtained all the contributions that in our judgment it is possible to secure, and inasmuch as the receipts to be realized from the sale of lots, &c., are scarcely sufficient to pay the ordinary expenses of the association, we know of no other means by which the debt may be removed but by making an assessment upon all lot holders.

The Board, by a resolution passed on the 10th day of June last, resolved to advance the price of lots to fifteen dollars, for the transfer of enclosed lots five dollars and for unenclosed lots two dollars and fifty cents, to be paid the association.

We have obtained the surrender to the association of notes given in exchange for certificates of stock and also of original certificates amounting together to $846 60; thus reducing the stock debt to $462.98, which added to $1340.00, the amount of money borrowed by the association, makes the total debt $1802.98.

During the year we have realized from the sale of lots and permits $519.59, and by collections on subscription book $139.80, which added to $62.22 balance on hand at our last settlement, makes the total cash receipts for the year $901.61.

Our expenditures during the year have been as follows: Superintendent $240.00; Borrowed money returned $300.00; Interest on borrowed money $124.29; Certificates redeemed in the purchase of lots $36 25; Estate of J. T. McElhenny for Printing $20.50; Repairs to pump $1 00; Incidental expenses $5.66; Total expenses for the year $960 97; which leaves a cash balance in the hands of the Treasurer of $240.64 J. L. SCHICK, President.

Trout.—We learn that a party of gentlemen who went on a fishing excursion to Dublin Gap, caught in the course of the evening one hundred and seventy-five trout, some of them over twelve inches long.—*State Guard.*

We can beat that! A Williamsport friend informs us that on Friday last *one* Baltimore gentleman who tried his skill at trout fishing in one of the mountain streams for which "old Lycoming" is so justly celebrated, captured three hundred and forty of the "speckled beauties" in seven hours!—*Harrisburg Patriot.*

We can't beat it, but mean to have our "fish story" too. Last fall a party of eleven gentlemen went to the Potomac to fish for bass, and—didn't catch one!

Major Frederick Metzger, aged about 83 years, died at Hanover on Wednesday last, from the effects of a fall on the Friday previous. He served honorably in the battle at North Point, in 1814.

Locust Sting.—The Hanover *Spectator* says that a little son of Mr. Jordy, storekeeper, at Abbottstown, died last week from the sting of a locust. The same paper also reports several cases in York county.

Housekeepers and others wanting good Cooking Stoves, the best in the market, warranted to bake and give satisfaction, or any thing in line of Tin Ware, Japan Ware, Hollow Ware, Chamber Sets, Bread and Spice Boxes, Ice Cream Freezers, Water Coolers, Coffee Mills, Bird Cages, Fruit Jars and Cans, Waiters, &c., &c., will find just what they want at the Ware-room of Col C. H. Buehler, corner of Railroad and Carlisle street, opposite the Passenger Depot, and at prices which defy competition. tf

Summer having came at last, everybody is laying aside their winter rig and substituting more comfortable clothing. Now is the time to get Ready-made Clothing, and Francis Cunningham's, opposite the "*Star and Sentinel*" office, just the place to get them. He has the largest stock ever opened in Gettysburg, and sells at prices that can't be beat. Call and examine for yourselves. 3t

A Full Assortment.—The attention of Farmers, Builders, Contractors, and others is invited to the large assortment of LUMBER of all kinds suitable for building purposes, to be found at Col C. H. BUEHLER'S Lumber Yard, at corner of Carlisle and Railroad streets including Boards, Planks, Flooring, Siding, Laths, Pickets, Shingles, &c. Also Posts, hewed and sawed, with prime Fencing Boards, white Pine and Hemlock. His stock is not only large, but his arrangements are such that he can sell at the very lowest cash rates. Also, constantly on hand, Blacksmith, Lime-burners' and Stove COAL. tf

The great amount of time consumed by the ladies in dressing and arranging their hair, must make any article which would lessen their labor particularly desirable. Ring's Vegetable Ambrosia leaves the hair in such condition as to render the dressing and arranging a very easy matter. It imparts to it that splendid glossy appearance so much admired, cleanses the scalp from dandruff and all humors, and prevents baldness; promotes its growth, and restores gray hair to its original color. June 12. 1m

Radical Restoration.—Its good effects are permanent. It not only restores the color of the hair, but the quantity and natural glossiness. This is said by every one using Mrs. S. A Allen's Improved (*new style*) Hair Restorer or Dressing, (*in one bottle*). Every Druggist sells it. Price One Dollar. 1m

THE Pittsburg *Dispatch* (Radical) a few days ago said:

"Yesterday a State held a Congressional election—the young State of Oregon. Politicians will anxiously await the result, as it will indicate pretty plainly the state of feeling on the Pacific coast.

"The present election will determine the question whether or not there has been a reaction against this Democratic increase. It will also determine the position of the State in the election next fall."

The result in Oregon has determined the question that there is no reaction against the steady Democratic increase, and fixes the position of the State in the election next fall certain for the nominee of the 4th of July Convention.

BUTLER AND GRANT.—The Chicago *Tribune*, a leading Republican Grant organ, says:

"Gen. Butler, it is known, has never been in favor of General Grant's election to the Presidency; nor has he ever been over-scrupulous in the means employed in compassing his defeat. It is suspected that there are other persons equally malignant and unscrupulous inside the Republican party."

After the election it will be suspected that a great many Radicals besides Butler were not favorable to the success of "the greatest military chieftain of the age."

THE lower House of Congress has voted to reduce the tax on whiskey to 50 cents a gallon.

THE DEMI-JOHN AND JUG QUESTION.

GETTYSBURG SPRING, June 23, 1868.

MR. EDITOR:—By a recent decision of the Gettysburg Spring Company, no more Demijohns or Jugs will be filled with the Gettysburg Water for transportation to any outside market. Though Demijohns and Jugs, not containing more than 3 gallons, will be filled to supply the people of Gettysburg and immediate vicinity, *as usual*.

But any abuse of this privilege, by sending away the water thus supplied, will forfeit the party's right so concerned, and subject them to legal responsibility in addition. This action on the part of the Company has become necessary to the protection of the trade and the protection of its own trade marks, so essential to commercial success, as well as for the invalid public. Such has become the demand for this water in all parts of the country, that any trick, however unfair, is resorted to procure it at a reduction of current rates by persons in no way entitled to special favors; and the generous and humane in the vicinity of the Spring are made the unconscious instruments of this species of smuggling.

To accommodate all classes of consumers of this water, the Company has decided to place in the market *one* as well as *two dozen* cases of quart bottles, at a corresponding reduction of rates.

Yours respectfully,

G. D. SMITH, Sup't.
O. K. Spring Co.

A LITTLE DIALOGUE.—Gen. Grant's supporters are fond of quoting certain of his sayings; such as "unconditional surrender," "move on your works," "fight it out on this line all summer," etc., and of applying them to the present political campaign. Well, now, let *us* make the application to the first battle of the canvass, and put it in the form of a dialogue:

Grant to the Democracy of Oregon: "Unconditional surrender, or I will move on your works."

Democracy of Oregon to Grant: "Move and be hanged to you."

General Grant "moved" on the Democratic works, and the Democratic works moved on him, and the first shock sent him reeling and sprawling and powerless to the earth.

And he can fight it out on *that* line all summer—if he likes *that* line.

THE President has nominated Mr. Evarts as Attorney General, in place of Mr. Stanbery, whom the Senate meanly refused to confirm.

DELEGATES to the Democratic National Convention are already arriving in New York.

THE GREAT

CONOWAGO PHOSPHATE,

PREPARED BY

C. W. BENNO, M. D.,

LITTLESTOWN, PA.

THE Conowago Phosphate is destined to stand at the head of American Fertilizers. It has already proved its SUPERIOR QUALITIES, and ample certificates of its high merits will soon be furnished to the public. The proprietors will spare no pains or pains to make a reliable and uniform article. It is superior to Peruvian Guano, because it is MORE LASTING IN ITS EFFECT and EQUAL TO IT ON THE FIRST CROP. It takes more to exhaust the soil, as most of the fertilizers in the market do, and leave the land after gathering the first crop in a worse condition than before using it, but it remains an active fertilizer in the soil, and continues every after year to show its value on every crop that is put in the land.

The Conowago Phosphate contains a large percentage of Ammonia and Phosphoric acid, which are essential elements to vegetable food. They either enter directly into the plant or prepare the alkalies in the soil to do so. The base of the Conowago Phosphate is PURE RAW BONE, completely and thoroughly dissolved without the use of any volatile agent.

One of the great advantages of the Conowago Phosphate is that it will dissolve the sand in the soil and set the silica free to be absorbed by the growing plant, which is a very important ingredient in giving firmness and strength to the stalk and straw. *Nothing is more lifting and lodging of crops* that are forced up by a wet and warm season, and will greatly facilitate *the ripening of the grain and so are it against the rust.*

Agencies are being established throughout the country wherever fertilizers are sold. We are not afraid to place it beside the best in the country.

Let all the farmers and planters make up their minds that they will try the Great Conowago Phosphate this fall.

Price Fifty Dollars per ton.

BENSON & MACE,
Proprietors.

☞The Conowago Phosphate being made very fine, and thoroughly pulverized, makes it convenient to use in the drills, and mixes more freely with the soil. All farmers know the advantage of fine fertilizers.

COTTONADE Coats, Pants and Vests at CUNNINGHAM'S.

640 MILES
OF THE
UNION PACIFIC
RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive:

I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and *no more*. THE GOVERNMENT PERMITS the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, car-shops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which over *Eight Million Dollars* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that

FIRST MORTGAGE BONDS

upon such a property, costing nearly three times their amount,

Are Secure beyond any Contingency.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July, at the Company's office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

And it is believed that they will soon be at a Premium.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Subscriptions will be received in GETTYSBURG, by GETTYSBURG NATIONAL BANK and FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau st., and by JOHN J. CISCO & SON, Bankers, No. 59 Wall st., and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP for 1868 has just been published by the Company; giving fuller information than is possible in an advertisement, respecting the Progress of the Work, Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's Offices or to any of the advertised Agents.

McCORMICK'S
MOWERS & REAPERS.

THE large and only GOLD MEDAL OF HONOR, for Harvesting Machines, and the Decoration of the Cross of the Legion of Honor, was awarded to CYRUS H. McCORMICK, over all other competitors, at the Paris Exposition in 1867. This was not one of the ordinary Gold Medals distributed to other exhibitors, but one of the ELEVEN SPECIAL MEDALS, larger and more valuable, awarded only to such articles as in the estimation of the jury demanded some extraordinary mark of distinction for their superior excellence, world-wide fame, and universal utility.

The sales of the McCormick Machines last season amounted to nearly TEN THOUSAND, and McCormick & Bros. are now preparing a largely increased number, *with many important improvements*, for the season of 1868. The machines are popular not only because they are constructed on correct principles—principles which are at the foundation of all the other machines in the country, with more or less modifications—but also to the excellence of the materials used, and the care taken in their construction. The machines are plain and simple—no superfluities, gimcracks or new-fangled appendages, that complicate and weaken a machine,—but while they have everything necessary, or even desirable, a boy or girl who can drive

MAKING THE GARDEN.

Now begins the busiest season of the year, The general's busiest season of the year, The seeds already broken by the spade— The tools made loose by the passing rake— The almanac consulted, and the signs Commanding favor, with apron full Of choicest seeds, the best the last year gave, She salutes the garden, where all day, Breathing the pleasant odor of the mold, She bends and plants, while to her eye of hope There swings the early pea, and there the bean, The lettuce and radish, and what else Note ordinary providence requires. But chief of all, with careful hands, she sets The slips, the bulbs, and plants, which round each bed Shall make a bright embroidery of flowers.

HOW TO HAVE HEALTHY GRAPES.

In summing up the new discoveries of the year, *Hoyen's Magazine* says:—"The failure of the grape crop has naturally instituted inquiries as to the cause, and although it is admitted that it has been from the late spring and cold wet summer, the question arises if we may not secure a fair crop under such circumstances, which are likely to recur again. Thus the West—which last year suffered as the East has this—have a plentiful supply this year, never better, even the Catawba being quite free from rot. This fact shows conclusively that moisture in excess is fatal to the grape crop, and knowing this, it will be the main object of the cultivator to guard against it. We cannot combat with the season, but we can and should pursue such a course of culture as will not aggravate its effects.

"The lesson taught by this fact is that we should avoid everything in grape culture which has a tendency to maintain an excess of moisture around the roots. Deep trenching and high manuring must be discarded, except in thin and elevated localities, and an abundant drainage supplied, which will carry off as quickly as possible the surplus water. Sites should be selected which have a gentle slope to carry away the surface water, before it can find its way through and saturate the earth; coarse materials and sandy soil should be used when the ground is flat; and all precautions taken to keep the soil warm and dry. The roots will then have energy and vitality enough to throw off the mildew, which attacks only weak vegetation, as we see it attacks the Delaware and weaker growing sorts first. As to vineyards, to be sure of success, they should be on side-hills, as they are in the Pleasant Valley region, where the grapes, wherever shown, have carried off the prize this year."

CERTAIN CURE FOR FOUNDERS.—As soon as you discover that the horse is foundered, take him to the nearest branch or stream of water and tie him in standing in the water nearly up to his belly—his head being so high that he cannot drink. If the water is warm, let him stand in it several hours; then take him out, rub his legs thoroughly to promote circulation, and again tie him in the water, if he is still lame. By repeating this process two or three times the horse will be effectively cured. If the weather is cold when the horse is foundered, that is, if it is in winter, the horse must not be allowed to stand in the water more than about twenty minutes at a time. He should be taken out and his legs rubbed diligently till they become dry and warm and the circulation of the blood made active, and this process must be repeated till the horse is cured, which will be generally within twenty-four hours. This remedy will cost nothing, can do no possible harm, and will in every instance cure, if the disease has not been of too long standing. Don't be afraid to try it.—*Rural World.*

PLASTER WITH MANURE.—If you have a fine lot of manure that you wish to preserve and rot during the summer, mix plaster (gypsum) with it, mix it throughout the heap. Let there be some scattered on the top and most at the bottom where the juices settle. Plaster not only holds the strength of the manure from escaping, but decomposes it; the lime of the plaster uniting with the carbon of the manure, and the sulphur (of the plaster) with the ammonia which exists as a carbonate. Thus a little plaster does more good than anything perhaps that can be done to the manure heap.—*Rural World.*

THE Ramie plant, which was introduced into this country from Java, to the soil of which it is indigenous, is attracting much attention in the South. At an agricultural fair recently held in Alabama, it was one of the special features of the exhibition. It is claimed that, if properly cultivated and worked, it will eventually take the place of cotton, and supply any deficiency in that great staple production. Its fibres are said to be much finer and stronger than the best flax; that they are as fine as Sea Island cotton, and that, after cleaning, they become very soft and white, and take color as readily as the finest wool or silk. Several articles of clothing made from this fabric were exhibited at the fair referred to, and were particularly noticed for the strength and beauty of the material. The cultivation of the Ramie plant has been successful on a number of plantations of Alabama.

WOUNDS.—One of the best washes for ordinary wounds in horses, is to take one quarter of a pound of saltpetre, half pint of turpentine, and put them into a bottle; shake up well before using; apply three times a day with a feather.

CRUMPETS.—Mix a quart of flour with new milk and a little salt—making a batter—add a tablespoonful of brewer's yeast or a half teacupful of home-made yeast. Beat thoroughly two eggs and add to it; set in a small crock by the fire. When well risen, should be baked in rings in an oven or on a large griddle.

AN IRISH FARMER.—Near the village of M—— there lived a farmer who engaged a son of the Emerald to work for him. One morning in the spring Pat was sent to harrow a piece of ground. He had not worked long before all the teeth except two or three came out of the harrow. After a while the farmer went in the field to see how Pat proceeded, and asked him how he liked harrowing.

"Oh," replied Pat, "it goes a bit smoother now since the pegs are all out."

NEVER enter a sick room in a state of perspiration, as the moment you become cool your pores absorb. Do not approach contagious diseases with an empty stomach, nor sit between the sick and the fire, because the heat attracts the vapor.

AN old woman who went into the poultry business some time since, under the expectation that she could make a fortune by selling eggs, has quitted it in disgust, because, as she says, "the hens never'll lay when eggs are dear, but always begin as they get cheap."

JOHN PHŒNIX once said, that when, from the deck of an out-going steamer, he shouted to a friend, "Good bye, Colonel!" two-thirds of the crowd raised their hats, and said, "Good bye, ole fel. Take care of yourself."

TO FARMERS!

Pacific Guano Company's
SOLUBLE
PACIFIC GUANO!
PRICE REDUCED TO $36.00 PER TON.

THE USE OF THIS GUANO in Maryland for several years for Corn, Tobacco and other Spring Crops, and of late for Wheat, has established its excellence. It possesses all the quickness of Peruvian Guano, with permanent qualities not possessed by that article.

Experience has shown that this Guano ripens the Wheat crop from *five to six days* earlier than the Super Phosphates. It also ripens Tobacco earlier, and produces a crop of better quality. The Pacific Guano Company has authorized the above reduction in consequence of the depressed condition of the farming interests in the Southern States. It is the purpose of the Company to furnish the best *fertilizer at the lowest price*, which they are able to do by reason of their large capital and facilities. The Guano is warranted same in quality as heretofore sold by us.

KISSINGER & SHIREMAN,

NO. 2 WEST MARKET STREET, *YORK, PA.,*

AGENTS AND DEALERS IN
PIANOS & CABINET ORGANS, MELODEONS,
AND ALL KINDS OF
MUSICAL INSTRUMENTS,

respectfully inform the public that they are prepared to furnish Pianos of the following manufacture or of any other make that may be preferred:

Albright, Bacon & Octavius, Chickering & Son, Bradbury, Kunze & Son, Gale & Son,

SMITH'S CELEBRATED
COTTAGE, HARMONIC AND BOUDOIR
ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them superior to all others for exceedingly quick articulation and round Tone, the essential feature in Instruments of this class. We invite the attention and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-bass stop with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

☞BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

☞Instructions given both in Vocal and Instrumental Music, at our rooms, and at pupils' homes, either to individuals or classes, on reasonable terms.
